

## **Slovak Angling Association – The Board**

**A.Kmeťa 20, 010 55 Žilina**

### **THE FISHING RULES**

For holders of fishing licenses for carp waters on the fishing grounds of the Slovak Angling Association valid from the 1st January 2015.

Slovak Angling Association –the Board issues this fishing license for carp waters of the Slovak Angling Association to execute fishery law in the fishing grounds of the Slovak Angling Association in accordance with the law no. 139/2002 Coll. regarding fishery as later amended (hereinafter referred to „law“) and the Executing Decree no. 185/2006 Coll. (hereinafter „Decree“).

#### **General principles for holders of the association fishing licenses**

- a) These Fishing Rules regulate means and conditions of the execution of the fishery acts in the fishing grounds of the Slovak Angling Association stated in the separate part of these Fishing Rules (lists and fishing grounds description, earlier-carp catching exemption since the 15th May 2015-2015, Minimal legal capture size regulations)
- b) Holders of this fishing license can catch in the fishing grounds stated in the list. This fishing license is valid for carp waters of the members' organization.
- c) The anglers are required to keep the law, Decree and these Fishing Rules.
- d) In all carp waters with fishing allowed year-long, the observance of the breeding season (individual fish protection) is required in §10 under the Decree.
- e) The anglers are required to keep a fishing ticket, a fishing license and a member's license with the photo issued by the member's organization of the Slovak Angling Association.
- f) Selected clauses of the Decree are stated on the page 3-5.
- g) Fishing in boundary waters is allowed exclusively in the territory of the Slovak republic.
- h) The holder of this fishing license gives back the fulfilled notice till the 15th January next year after the expiry to the user of ground who issued it. In case of not doing so, the user will not issue them the license for the next year.
- i) Fishing grounds, in the appendix of this license ZRP-K marked „H“, inform anglers about an occurrence of Danubian salmon (hucho hucho).
- j) The anglers are not allowed to fish and keep the Danubian salmon within this fishing license.
- k) The scope of the children's fishing license for carp waters extends free of charge in time of school vacation (July-August) including the fishing grounds of the SRZ in compliance with the license validity of an adult guide – holder of the license who accompanies the child during fishing.
- l) In case that ZO SRZ (local or municipal organizations) demanded the regulation of the Minimal legal capture size in the fishing ground which is a part of this license, this Minimal legal capture size of the fish is valid for all holders of this license. These regulations are stated in the separate part of the license, in the list of the fishing grounds.
- m) Anglers are obliged to keep the laws and regulations (VZN) of the communes in which cadastral area are they fishing.
- n) We highly recommend anglers not to keep the carp with the size more than 70 cm in the grounds of the Slovak Angling Association.

In the period of July – August regarding 24 hours fishing in case of continuing in a capture on the following day an angler is required to inscribe ending of the capture by recording of other fish species kept at 24 h. In case of no catch an angler writes this fact into his Fishing Survey (crossing off) as well as he is required to write into his Fishing Survey a fact that he did not reach allowed quantity limit of

catching in one single day. Consequently he inscribes new date of capture and a number of the ground.

### **Manners at fishing**

Anglers fishing in time are liable for keeping their vicinity tidy and clean during execution of the fishery law as well as after its ending.

### **Obligatory fishing tackle**

Anglers need to have a measure equipment for the measuring the body of the caught fish, forceps and a landing net as a part of basic equipment.

### **Using fish as a bait**

Only the fish species those capture is not bound by Minimal legal capture size can be used as a bait. The fish species those capture is bound by Minimal legal capture size can be used only if they reach the rated Minimal legal capture size within a particular fishing ground. Using small scale (max.1X1m) fishing net for baitfish capture is considered as the use of one fishing rod.

### **Caution**

We warn anglers using cars in order to come to the fishing grounds to respect proprietaries and usufruct by means of not crossing the lands out of reinforced communication and reserved parking lots and park there.

### **Protection fish measures at extraordinary situations**

In case of water quality deterioration acc. to §41 sec.2 of the Law no. 364/2004 Z.z. regarding Waters anglers are obliged to inform Slovenská inšpekcia životného prostredia (SIŽP), according to the fishing grounds – Okresný úrad životného prostredia, or to call 112. The contact number for SIŽP can be found in „Fishing license and Fishing Survey. In case of some technical or other regulations at some water reservoirs during the validity of these Fishing rules, it is necessary to respect the way of fishing in accordance with the regulation indicated on the boards.

Selected statutes from the Decree

Day fishing period (§121 c) within carp waters

- |                               |                       |
|-------------------------------|-----------------------|
| 1. January and February       | from 7,00 till 17,00  |
| 2. March and April            | from 5,00 till 21,00  |
| 3. May, June, and October     | from 4,00 till 24,00  |
| 4. July, August and September | from 00,00 till 24,00 |
| 5. November and December      | from 7,00 till 20,00  |

### **Minimal legal capture size s and the breeding season (individual fish protection) (§10, sec.1, a-l), (§13, sec. 1, a-ae)**

<b>FISH SPECIES</b>	<b>MINIMAL LEGAL CAPTURE SIZE</b>	<b>BREEDING SEASON</b>
Burbot ( <i>Lota lota</i> )	35 cm	1.1. – 15.3.
Rainbow trout ( <i>Oncorhynchus mykiss</i> )	25 cm	1.1. – 15.4.
American brook trout ( <i>Salvelinus fontinalis</i> )	25 cm	1.1. – 15.4.
Grayling ( <i>Thymallus thymallus</i> )	27 cm	1.1. – 31.5.

Northern pike (Esox lucius)	60 cm	1.1. – 15.6.
Huchen (Hucho hucho)	70 cm	1.1. – 31.10. 1.1. – 31.8. in the boundary waters
Common carp (Cyprinus carpio)	40 cm	15.3. – 31.5. in carp waters, individual breeding season is not valid in time from the 1st -15th May – capture allowed at fishing races and since the 15th May on the basis of the Ministry's allowed exemption
Asp (Aspius aspius)	40 cm	15.3.- 31.5.
Common sculpin (Cottus gobio)		15.3.- 31.5.
Carpathian sculpin (Cottus poecilopus)		15.3. – 31.5.
Dace (Leuciscus leuciscus)	20 cm	15.3. – 31.5.
Ide (Leuciscus idus)	20 cm	15.3. – 31.5.
Sterlet (Acispenser ruthenus)	45 cm	15.3. – 31.5.
Tench (Tinca tinca)	25 cm	15.3. – 31.5.
Carpathian barbus (Barbus petenyi)	25 cm	15.3. – 31.5.
Vimba bream (Vimba vimba)	25 cm	15.3. – 31.5.
Blue bream (Abramis ballerus)	20 cm	15.3. – 31.5.
White-eye bream (Abramis sapa)	20 cm	15.3. – 31.5.
Common bream (Abramis brama)	30 cm	15.3. – 31.5.
Beaked carp (Chondrostoma nasus)	30 cm	15.3. – 31.5.
Barbel (Barbus barbus)	40 cm	15.3 – 15.6.
Wels catfish (Silurus glanis)	70 cm	15.3. – 15.6.
Pike-perch (Stizostedion lucioperca)	50 cm	15.3. – 15.6.
Eastern pike-perch (Stizostedion volgensis)	35 cm	15.3. – 15.6.
Brown trout (Salmo trutta m.fario)	25 cm	1.9.- 15.4.
Lake trout (Salmo trutta m.lacustris)	45 cm	1.9. – 15.4.
European eel (Anguilla anguilla)	45 cm	1.9.- 30.11.
(coregonus maraena)		1.9.- 31.12.
European mudminnow (Umbra krameri)		Protected year-long
Tubenose goby (proterorhinus marmoratus)		Protected year-long
Stripped ruffe, schraetser (Gymnocephalus)		Protected year-long

schraetser)		
Balon's ruffe (Gymnocephalus baloni)		Protected year-long
Stone gudgeon (Gobio uranoscopus)		Protected year-long
Kessler's gudgeon (Gobio kessleri)		Protected year-long
Russian sturgeon (Acipenser gueldenstaedtii)		Protected year-long
Wild common carp (Cyprinus carpio – wild forma)		Protected year-long
Crucian carp (Carassius carassius)		Protected year-long
Zingel (Zingel zingel)		Protected year-long
Little chop, streber (Zingel streber)		Protected year-long
Riffle minnow (Alburnoides bipunctatus)		Protected year-long
Virgo roach (Rutilus pigus)		Protected year-long
A roach (Rutilus meidingeri)		Protected year-long
Spiny loach (Cobitis taenia)		Protected year-long
Goldside loach (Sabanejewia aurata balcanica)		Protected year-long
Sabrefish (Pelecus cultratus)		Protected year-long

### Quantity of catchings allowed and their evidence

1. At the fishing ground each time before starting a capture an angler is required to write down clearly without a possibility of erasing an actual date and a number of the ground on which the capture is going to be carried out into their Fishing Survey
2. An angler is allowed to keep in one single day even if they catch in more fishing grounds at most:
  - a) 2 pieces of a carp, pike-perch, northern pike, wels catfish or tench or a combination of 2 pieces mentioned herein.
  - b) 4 pieces of salmonoid fish – grayling, beaked carp or barbel or a combination of these species,
  - c) that amount of all species which overall weight is not higher than 7 kg.
3. After any weight overrun of the rated 7 kg limit for other fish species that angler is allowed to keep the capture within a particular single day.
4. If an angler keeps fish heavier than 7 kg, the capture within one single day is over.
5. 6-15 years old anglers can catch fish exclusively by using one rod with reel under the supervision of an adult angler who is a holder of fishing licence They can keep that amount of fishing which is not heavier than 3 kg or 2 pieces of carp, tench, pike-perch, northern pike, wels catfish, asp, grayling or salmonoid fish species. After any weight overrun of the rated 3 kg for other fish species that an angler is allowed to keep the capture within one single day. If

an angler keeps fish heavier than 3 kg, the capture within one single day is over. The supervising person is responsible for the right keeping of the Fishing Survey.

6. 15-18 years old anglers can catch fish as adults who are holders of the fishing licence or a specialized licence.
7. By keeping of an allowed amount and weight of fish the capture within one single day is over.

These Fishing Rules are valid since the 1st January 2015. Fishing Rules valid since the 1st January 2014 are not valid any more.

#### List and description of the fishing grounds

Number of the fishing ground	Name of the fishing ground	Name of the organization of SRZ
------------------------------	----------------------------	---------------------------------

#### BRATISLAVSKÁ OBLASŤ – BRATISLAVA AREA

<b>1-0040-1-1 Čierna voda č.3</b>		<b>Senec</b>
-----------------------------------	--	--------------

Partial drainage area of Čierna voda from the bridge nearby the pumping station Kráľová pri Senci to the railway bridge in Bernolákovo.

<b>1-0050-1-1 Čierna voda č.4</b>		<b>Senec</b>
-----------------------------------	--	--------------

Partial drainage area of Čierna voda from the railway bridge in Bernolákovo to springs.

<b>1-0110-1-1 Dunaj č. 3 – OR Veľký Zemník</b>		<b>Bratislava 5</b>
--	--	---------------------

Water area of an dead arm (48,4 ha) on the right side of the river Danube between the dam impoundment and the system of arms called Rusovecké. Angling allowed in the part of Danube in the length 2200 m on the left side and 90 m width of the fishing ground to the signed race track. Anglers are required to follow the boards and published notices (MsO Bratislava 5). Angling prohibited from 15th March till 31st May. The fishing ground is not boundary water.

<b>1-0130-1-1 Dunaj č. 3 – Rusovecko-Jarovecká sústava ramien</b>		<b>Bratislava 5</b>
---	--	---------------------

System of arms (56,1 ha) on the right side of the dam impoundment nearby the village Rusovce from the mouth to the weir and the road dividing Polder to water inlet object of the Chorvátsky channel at the wastewater treatment plant Petržalka to the end of the arms at the arm Zuzana. Angling prohibited from 15th March till 31st May. The fishing ground is not boundary water.

<b>1-0140-1-1 Dunaj č.4 – Karlovesko-Devínske rameno</b>		<b>Bratislava 4</b>
--	--	---------------------

Water area of a side arm (33,85 ha) on the left side of the Danube river from the mouth to the beginning under quarry in Devín and the area of another arm (8,57 ha) above the quarry to Devín city district. Angling prohibited in the marked area because of drinking water source protection. Fishing allowed year-round, while respecting individual fish protection period. The fishing ground is not boundary water.

<b>1-0151-1-1 Gidra č. 1b</b>		<b>Pezinok</b>
-------------------------------	--	----------------

Partial drainage area of Gidra from the mouth of Štefanovský potok in Budmerice to the road bridge Častá - Dubová. There is a Protected Fishing Area (CHRO) from the lower fencing of the fish farm of the SRZ MsO Pezinok to the road bridge Častá-fishing prohibited.

**1-0160-1-1 Hlboké jazero pri Senci****Senec**

Water area of a lake 56 ha in Senec. Capture of carp and other fish species without individual breeding season and species without stated time of individual breeding, is allowed since the 15th May in 2015-2017.

**1-0300-1-1 Kanál Malina č.1****Záhorie**

Partial drainage area of Malina (Ameliorative channel) from the mouth of Morava river to the road bridge Láb-Dúbrava. Minimal legal capture size of tench:30 cm.

**1-0310-1-1 Kanál Malina č. 2****Záhorie**

Partial drainage area of Malina (Ameliorative channel) from the road bridge Láb-Dúbrava to the springs. Kuchyňská and Pernecká Malina to springs and to the gravel mine Pernek. Minimal legal capture size of tench:30cm.

**1-0370-1-1 Malý Dunaj č. 6****Bratislava 2**

Partial drainage area of the Little Danube from the road bridge Tomášov-Nová Dedinka to the old water lock on main Danube river.

**1-0390-1-1 Morava č. 1****Bratislava 4**

Partial drainage area of Morava river from the mouth into Danube next to Devín castle to Margeggs bridge (ground is a boundary water) and the water bodies within inundation area. Angling in boundary waters is exclusively allowed in the area of the Slovak republic.

**1-0400-1-1 Morava č. 2****Záhorie**

Partial drainage area of Morava river from Marcheggský railway bridge to rkm 33,3 – to the cadastral boundary of villages Záhorská Ves and Suchohrad. The ground is a boundary water – Angling allowed exclusively in the area of the Slovak republic. Fishing in water bodies within inundation area allowed only for holders of local, guest, specific and individual fishing licences. Minimal legal capture size of tench:30 cm.

**1-0410-1-1 Morava č. 3****Gajary**

Partial drainage area of Morava river from rkm 33,3 at villages Záhorská Ves-Suchohrad to the mouth of Rudava river rkm 51,8. The ground is a boundary water – Angling allowed exclusively in the area of the Slovak republic. Fishing in water bodies within inundation area allowed only for holders of local, guest, specific and individual fishing licences in the inundation areas.

**1-0420-1-1 Morava č. 4****Veľké Leváre**

Partial drainage area of Morava river from the mouth of Rudava rkm 51,8 to Tomkova Morávka rkm 59 (left side) at the cadastral area Moravský Svätý Ján. The ground is a boundary water – Angling allowed exclusively in the area of the Slovak republic. Fishing in water bodies within inundation area allowed only for holders of local, guest, specific and individual fishing licences.

**1-0430-1-1 Odpadový kanál****Veľké Leváre**

Drainage channel passing between Morava river and Lakšársky stream from the mouth of Baďura channel in Malé Leváre to the cadastral area Závod.

**1-0600-1-1 Rudava č.1****Veľké Leváre**

Partial drainage area of Rudava river from the mouth to the Morava river to the mill in Studienka Chválove.

**1-0610-1-1 Rudava channel****Rohožník**

Channel Rudava from the village Prievaly to the village Sološnica.

**1-0900-1-1 Štrkovisko Dunajská Lužná – Malá Voda****Dunajská Lužná**

Water area of the gravel mine (20 ha) in Dunajská Lužná. Capture of carp and other fish species without individual protection in breeding season and species without stated time of individual breeding, is allowed since the 15th May in 2015-2017. Minimal legal capture size of pike: 70 cm

**1-0960-1-1 Štrkovisko Kalná****Bratislava 3**

Water area of the gravel mine (6,5 ha) at the freight station Bratislava – Východ. Capture of carp and other fish species without individual breeding season and species without stated time of individual breeding, is allowed since the 15th May in 2015-2017.

**1-1120-1-1 Štrkovisko Vajnory 2****Bratislava 3**

Water area of the gravel mine (19 ha) in Bratislava-Vajnory District. Capture of carp and other fish species without individual breeding season and species without stated time of individual breeding, is allowed since the 15th May in 2015-2017.

**1-1180-1-1 Štrkovisko Zlaté piesky****Bratislava 2**

Water area of the gravel mine (52,2 ha) in Areál Zdravie Zlaté piesky in Bratislava – Ružinov District. Fishing prohibited year-long in the beach area of Areál Zdravie from the fence behind tobogan to the restaurant U Zlatého vodníka (including the fencing part!). On the bank of the gravel mine along Senecká cesta from the restaurant U Zlatého vodníka to the water-skiing lift – fishing restricted from the 1st June till 31st August from 9,00-18,00. Making fixed posts and shelters is strictly prohibited. No fire making! Access to the gravel mine in Areál zdravia permitted by valid fishing licence. Prohibition of keeping grass carp and silver and bighead carp. No fishing from the island! General angling prohibition from 15th March till 14th May. Capture of carp and other fish species without individual breeding season and species without stated time of individual breeding, is allowed since the 15th May in 2015-2017.

**1-1010-1-1 Štrkovisko na Židovkách****Záhorie**

Water area of the gravel mine (80 ha) in Vysoká pri Morave. Capture of carp and other fish species without individual breeding season and species without stated time of individual breeding, is allowed since the 15th May in 2015-2017. Minimal legal capture size of tench:30 cm.

**1-0980-1-1 Štrkovisko Kuchajda****Bratislava 4**

Water area of the gravel mine (9 ha) at the railway station Bratislava-mesto. On the basis of the contract with Municipal Office Bratislava Nové Mesto –owner of the land properties under the water area, it is necessary to respect operating rules of the natural area. Due to this fact is angling prohibited in June, July and August from 9,00 to 18,00. Prohibition of fishing from the island and pier within a radius of 10 m, 15 m from „Reštaurácia vodný svet“ – pier for boat anchoring. Entrance allowed only through specific entrances on valid fishing licence. Entrance for fishing after 18,00 in July, August and September from the Tomášikova Street – China Restaurant. General angling prohibition from 15th March till 14th May. Capture of carp and other fish species without individual breeding season and species without stated time of individual breeding, is allowed since the 15th May in 2015-2017.

**1-1190-1-1 Štrkovisko Zrkadlový Háj****Bratislava 5**

Water area of the gravel mine (20,5ha) in Bratislava – Petržalka District. General angling prohibition from 15th March till 14th May. Capture of carp and other fish species without individual breeding

season and species without stated time of individual breeding, is allowed since the 15th May in 2015-2017.

**1-1340-1-1 VN Kučišdorf**

**Pezinok**

Water surface area of reservoir (7 ha) in Pezinok. Capture of carp and other fish species without individual breeding season and species without stated time of individual breeding, is allowed since the 15th May in 2015-2017.

**1-1470-1-1 Záhorský kanál**

**Gajary**

Water area from the mouth to Pruksi to Homolský bridge.

**1-1480-1-1 Zohorský kanál č. 1**

**Záhorie**

Zohorský channel from mouth to the channel Malina to outflow from water reservoir Centnúz. Minimal legal capture size of tench:30cm.

**1-1490-1-1 Zohorský kanál č. 2**

**Záhorie**

Zohorský channel from the mouth to the water reservoir Centnúz to outflow from Prukse.

Minimal legal capture size of tench:30 cm.

**Západoslovenská oblasť – Western part of Slovakia**

**2-0040-1-1 Aszódsky kanál č. 2**

**Veľký Meder**

Partial drainage area of Aszódsky channel from the mouth of Csobánsky channel to the railway bridge Dolný Štál-Okoč.

**2-0050-1-1 Aszódsky kanál č. 3**

**Topoľníky**

Aszódsky channel from the railway bridge Okoč-Dolný Štál to the mouth to Little Danube.

**2-0090-1-1 Bebrava č. 1**

**Partizánske**

Partial drainage area of Bebrava river from its mouth nearby the village Praznovce to the road bridge in Livina village, stream Hydina from the mouth to Bebrava river to the road bridge Ostratice – Žabokreky. Minimal legal capture size of common carp:45cm.

**2-0100-1-1 Bebrava č.2**

**Bánovce nad Bebravou**

Partial drainage area from the road bridge nearby the village Livina to the mouth of Dubnička stream in Bánovce nad Bebravou, stream Livina from the mouth to the village Libichava with tributaries Libichavský stream and Višňová, streams Halačovka, Inovec, Vrbovský stream and Dubnička stream from the mouth to Bebrava river to the body of VN Prusy dam.

**2-0130-1-1 Blava č. 1**

**Trnava**

Partial drainage area of the Blava river from the mouth to the road bridge in Jaslovské Bohunice. Minimal legal capture size s of: tench – 25cm, carp – 45 cm, brown trout – 27 cm, rainbow trout – 27 cm, grass carp – 70cm.

**2-0230-1-1 Čergát č.1****Nové Zámky**

Partial drainage area of the ameliorating channel from the village Jatov to the mouth into Nitra river at the road bridge Nové Zámky – Komoča. Minimal legal capture size of tench:30 cm.

**2-0240-1-1 Čergát č.2****Nové Zámky**

Partial drainage area of the ameliorative channel from the road bridge behind the village of Palárikovo in direction to Selice to the mouth of the connecting channel between the villages Andovce and Zemné. Minimal legal capture size of tench: 30 cm.

**2-0280-1-1 Chvojnica č. 1****Holíč**

Partial drainage area of the Chvojnica river from the mouth to the road bridge nearby the village Dubovce.

**2-0300-1-1 Čergovský kanál****Kolárovo**

Main connecting channel Aszód-Čergov from the mouth to the Váh river (rkm 18) to the effluent from Aszód channel. Minimal legal capture size of tench: 30cm.

**2-0320-1-1 Čierna voda č. 1****Galanta**

Partial drainage area of the Čierna voda river from the mouth of Malý Dunaj at Starý les to the pumping station at the confluence of Stoličný stream, old river bed of Čierna voda from the mouth to Malý Dunaj under the Dolný Chotár village to the gates near the village of Čierna voda. Holecov channel and water area of Fekete ér near the village of Kráľov Brod and Kráľovobrodský channel. Minimal legal capture size of tench:40 cm and carp 45 cm.

**2-0330-1-1 Čierna voda č. 2****Sládkovičovo**

Partial drainage areal of Čierna voda river from the pumping station at the confluence of Stoličný stream to the bridge at the station in Kráľová pri Senci and Stoličný stream from the mouth to Veľký Grob with the tributary Zichy stream.

**2-0350-1-1 Dolnobarský kanál****Topoľníky**

Channel from the road bridge Dunajská Streda – Komárno near the village Dolný Bar to the mouth into the Klátovské rameno Arm near the village Topoľníky.

**2-0400-1-1 Dubová****Piešťany**

Dubová stream from the mouth below the dam body of VN Sĺňava to the road bridge Očkov-Pobedim near the village Pobedim. Minimal legal capture size of carp-45 cm, grass carp – 70 cm, tench – 30 cm.

**2-0410-1-1 Dudváh č. 1****Galanta**

Partial drainage area of Dudváh river from the mouth to Čierna voda to the mouth of Gidra river near the village Malá Mača, Salibský Dudváh near the village Čierny Brod to the confluence with Čierna voda, channel Pena from the mouth to Dudváh river to the village Kajaľ and stream Derňa from the mouth to the springs and Gorazdovský channel, drainage channel VN Kráľová, Kajalský channel to the irrigation channel near the village Kajaľ. Minimal legal capture size of tench – 40 cm, carp – 45 cm.

**2-0420-1-1 Dudváh č. 2****Trnava**

Partial drainage area of Dudváh river from the mouth of Gidra river near the village Malá Mača to rkm 14,05 – channel Dudváh – Váh near the village Siladice, stream Trnávka from the mouth to the effluent from the VN Boleráz, stream Rakyta, Rásovský stream and Krupanský stream from the

mouth to the springs. Minimal legal capture size of tench – 30 cm, brown trout – 27 cm, rainbow trout – 27 cm and grass carp – 70 cm.

**2-0430-1-1 Dudváh č.3**

**Drahovce**

Partial drainage area of Dudváh river near the village Pečeňady rkm 14,05 to the village Veselé rkm 22,08.

**2-0440-1-1 Dudváh č. 4**

**Piešťany**

Partial drainage area of Dudváh river from rkm 22,080 near the village Veselé to the road bridge at the village Pobedim and Holeška stream from the mouth to the village Trebatice. Minimal legal capture size of carp – 45 cm, grass carp – 70 cm, tench – 30 cm.

**2-0450-1-1 Dudváh č.5a**

**Nové Mesto nad Váhom**

Partial drainage area of Dudváh river from the road bridge near the village Pobedim to the effluent gate in village Čachtice and Čachtický channel from the mouth to the channel under the hydroelectric plant near the village Horná Streda to the bridge so called Černáčkin most in the area of Černačkina.

**2-0480-1-1 Dunaj č. 1**

**SRZ Rada Žilina**

Partial drainage area of the Danube River from the mouth of the Ipeľ river (rkm 1708) upstream as far as the mouth of the Vážsky Dunaj (rkm 1766) in Komárno. Fishing allowed year-round, while respecting individual fish protection period. Fishing ground is a boundary water. Spinning and live bait fishing allowed from 1st April till 31st January on the basis of a ruling of the Ministry of Environment of the Slovak republic č. 8947/2009-8.1.

**2-0490-1-1 Dunaj č. 2**

**SRZ Rada Žilina**

Partial drainage area of the Danube river from the mouth of the Vážsky Dunaj in Komárno (rkm 1766) upstream as far as rkm 1810 near the village of Sap –is a boundary water and the Medveďovské rameno - side arm. Fishing allowed year-round, while respecting individual fish protection period. In the area from the mouth of Vážsky Dunaj in Komárno (rkm 1766) to the railway bridge is spinning and live bait fishing allowed from 1st April till 31st January on the basis of Decision of the Ministry of Environment of the Slovak republic č. 8947/2009-8.1.

**2-0500-1-1 Dunaj č. 2 OR spodná inundácia**

**SRZ Rada Žilina**

Detached and side arms: Veľký Lél, Kľúčovecké rameno, Opátske rameno and dike surrounded area in the village of Medveďov. Fishing allowed year-round, while respecting individual fish protection period.

**2-0510-1-1 Dunaj č. 3**

**SRZ Rada Žilina**

Old river bed of the Danube River from rkm 1810 near the village Sap as far as the weir on by-pass of Čunovo, to hydro-electric power plant Čunovo, to central by-pass, to lock chamber to the lower end of water sport area in Čunovo and to lower boundary of pyramid chute on the weir on by-pass. It the area of the lower boundary of pyramid chute on the weir on by-pass is CHRO – Protected fishing area - prohibition of fishing year-long. Old channel of Danube from rkm 1810 to the boundary stone rkm 1850,5 – boundary water (left side). Mošonský Dunaj arm from the boundary with Hungary to the small hydro power plant– is not a boundary water. Fishing allowed year-round, observance of breeding season (individual fish protection).

**2-0520-1-1 Dunaj č. 3 – ľavostranný priesakový kanál VD**

**SRZ Rada Žilina**

Water area from the seepage channel from the small hydro power plant above the hydroelectric plant in Gabčíkovo to Vlčie Hrdlo in Bratislava, including Čilistov channel I from the mouth to the

seepage channel to the gate. Fishing prohibited from 15th March till 31st May. IT's not boundary water. Čilistovský channel II. Lagúna (MO SRZ Šamorín) from the gates to the end of the channel. Capture regulated by the Fishing Rules of MO SRZ Šamorín. Fishing allowed in Lagúna only to the holders of local, guest, special and individual licences.

**2-0530-1-1 Materiálová jama A**

**SRZ Rada Žilina**

Water area of the material lake A near the village of Vojka (70ha). Capture of all fish species prohibited from the 15th March till 31st May.

**2-0540-1-1 Materiálová jama B**

**SRZ Rada Žilina**

Water surface of the material lake B near the village of Bodíky. Capture of all fish species prohibited from the 15th March till 31st May.

**2-0550-1-1 Dunaj č. 3 Odpadový kanál VD**

**SRZ Rada Žilina**

Water area of the channel from the mouth to the old river bed of the Danube river near the village Sap to the hydroelectric plant in Gabčíkovo and lock chambers (plavebné komory). Fishing allowed year-round, observance of breeding season (individual fish protection).

**2-0560-1-1 Dunaj č. 3 OR horná inundácia**

**SRZ Rada Žilina**

System of arms from its mouth to the old channel of the Danube river nearby the port in Gabčíkovo as far as the water flow inlet building near the village of Dobrohošť. Fishing allowed year-round, observance of breeding season (individual fish protection).

**2-0570-1-1 Dunaj č. 3 – OR stredná inundácia**

**SRZ Rada Žilina**

System of arms from confluence of channel and old river bed of the Danube as far as the water flow inlet nearby the 1st bridge from the mouth of the seepage channel Fishing allowed year-round, observance of breeding season (individual fish protection).

**2-0580-1-1 Dunaj č. 3- pravostranný priesakový kanál VD**

**SRZ Rada Žilina**

Water surface of the right to its upper end near the village of Dobrohošť. Capture of all fish species prohibited from the 15th March till 31st May.

**2-0590-1-3 Dunaj č. 3 – Prívodný kanál VD**

**SRZ Rada Žilina**

Capture of all fish species year-long!!!!!!!!!!!!!!!

Water surface area of the channel on the left side from lock chamber of VD Gabčíkovo to the effluent from wastewater treatment plant Šamorín near the village Čilistov, on the right side from hydropower plant to the shipping km 29 (STOP sign of area with sport shipping prohibited)

**2-0600-1-1 Dunaj č. 3 – pravostranný priesakový kanál VD Čunovko-Rusovecko-Jarovecký Rada Žilina**

Water surface of the channel from the state boundary with Hungary (bridge) nearby the village Čunovo as far as the waste water treatment plant in Bratislava – Petržalka. Capture of all fish species prohibited from the 15th March till 31st May.

**2-0610-1-1 Dunaj č. 3 – zdrž VD Hrušov – Čunovo****SRZ Rada Žilina**

Water surface of the backwater area from the water piping mouth of the waste water treatment plant in Šamorín nearby the village of Čilistov Bratislava – vidiek, to rkm 1862 and adjacent arms of the backwater area (out of Rusovecko-Jarovecká sústava ramien – individual fishing ground no. 1-0130-1-1). Water surface of the the backwater area on the right-side from km29 VD (SIGN – STOP SPORT SHIPPING to rkm 1862 and adjacent arms of the backwater area. Fishing allowed year-round, observance of breeding season (individual fish protection). Due to to the Danubia park building on the right-side of the backwater area from the Mošonská hydroelectric power plant to the water inlet of flood protection polder signed No entrance– is fishing from the bank prohibited from 1st January 2015 till 31st December 2017.

**2-0620-1-1 Dunaj č. 4****SRZ Rada Žilina**

Partial drainage area of Danube left side rkm 1862 from the mouth of Morava river nearby Devín and on the right-side from rkm 1862 to the state boundary with Austria. The area from the mouth of Karloveské rameno Arm to the mouth of Morava river – boundary water. Fishing allowed year-round, observance of breeding season (individual fish protection).

**1-0130-1-1 Dunaj č. 3 – Rusovecko-Jarovecká sústava ramien****Bratislava 5**

System of arms (56,1 ha) on the right –side of the backwater area at the village of Rusovce from the mouth of the backwater area and the path dividing Polder to „nápustný objekt“ of Chorvátsky kanál nearby waste water treatment plant Petržalka to the end of the arms at the arm Zuzana.

Capture of all fish species prohibited from the 15th March till 31st May.

**2-0640-1-1 Farská voda****Holíč**

Farská voda from the mouth to Morava river near the pumping station Kopčany to it's underpass of Chvojnica stream and adjacent water area Valcha

**2-0660-1-1 Gidra č. 1a****Trnava**

Partial drainage area of Gidra river from the mouth near the village Malá Mača to the mouth of Štefanovský potok stream near the village Budmerice and Štefanovský stream from the mouth to the springs. Minimal legal capture size of tench – 30 cm, carp – 45 cm, brown trout – 27 cm, rainbow trout – 27 cm, grass carp 70 cm.

**2-0680-1-1 Hlavný kanál Csóvanyos****Šaľa**

Water area of the main channel from the county's borders Komárno-Šaľa to the village Žiharec. Minimal legal capture size of tench – 40 cm.

**2-0740-1-1 Hron č. 1****Štúrovo**

Partial drainage area of Hron river from the mouth near Štúrovo to the village Čata and Bardoňovský stream (Kvetnianka) from the mouth to the springs. Minimal legal capture size – tench – 40 cm.

**2-0750-1-1 Hron č. 2****Želiezovce**

Partial drainage area of Hron river from the lower district of the village Čata to the weir Šárovce and from the road bridge Tekovské Lužany – Demandice to the road bridge in Jur nad Hronom, streams Vrbovec, Lužianka, Malina and Nýrica from the mouth to the springs. In the area from the weir body of the minor hydroelectric power station Šárovce to the mouth of water treatment plant Šárovce there is Fishing Protected Area which is signed on the boards.

**2-0760-1-1 Hron č. 3****Levice**

The river Hron from the road bridge in the village Jur nad Hronom to the mouth of Kozárovský (Čaradický) stream. Dead arm in the cadastre of the village Horná Seč and Kalná nad Hronom, partial drainage area of the stream Podlužianka from the road bridge in the village Starý Hrádok to the springs, drainage area of the stream Podlužianka from its mouth to the Kálnička small hydropower plant impoundment near the village Vyšné nad Hronom to its effluent near the water treatment plant Levice, streams Korlát, Lipník and Kozárovský (Čaradický), Rybnický, Teplička, Kráľovka, Čajkovský including tributary Burda, Gondovský stream, Kamenec including tributaries, Ďúrsky stream and water reservoir Turá – no association carp licence is valid.

**2-0770-1-1 Ipeľ č. 1****Štúrovo**

Partial drainage area of the river Ipeľ from the mouth to the lower district of the village Pástovce and water surface in the village Chľaba. The ground is a boundary water. In the area from the mouth to the lower district of the village Pástovce is fishing on live bait and spinning allowed from 1st April till 31st January on the basis of the Decision of Ministry of Environment of the Slovak Republic no. 8947/2009-8.1. Minimal legal capture size of tench: 40 cm.

**2-0780-1-1 Ipeľ č. 2****Želiezovce**

Partial drainage area of the river Ipeľ from the lower district of the village Pástovce to the mouth of the stream Búr nearby the village Kubáňovo and the stream Jelšavka from the mouth to the springs. The fishing ground is a boundary water. In the area from the lower district of Pástovce to the mouth of the stream Búr is fishing on live bait and spinning allowed from 1st April till 31st January on the basis of the Decision of Ministry of Environment of the Slovak Republic no. 8947/2009-8.1.

**2-0790-1-1 Ipeľ č. 3****Šahy**

Partial drainage area of the river Ipeľ from the mouth of the stream Búr nearby the village Kubáňovo to the road bridge in the village Ipeľské Predmostie. The fishing ground is a boundary water. Fishing on live bait and spinning allowed from 1st April till 31st January on the basis of the Decision of Ministry of Environment of the Slovak Republic no. 8947/2009-8.1.

**2-0810-1-1 Jarčie č.1****Šoporňa**

Jarčie stream from the mouth to the highway bridge nearby the village Pata. Minimal legal capture size of carp – 45 cm, grass carp – 65 cm and tench – 35 cm.

**2-0820-1-1 Jarčie č. 2****Sereď**

Jarčie from the highway bridge nearby the village Pata to the springs. Minimal legal capture size of tench: 40 cm.

**2-0961-1-1 Kamenický kanál****Štúrovo**

Partial drainage area of the Kamenický channel from the pumping station at the railway bridge through the river Hron to OR Berek, Želiarsky channel and Štúrovský channel. Minimal legal capture size of tench – 40 cm.

**2-0981-1-1 Kanál Kátovské jazero****Holíč**

Water flow from the cadastral boundary of Skalica to the junction under the stream Chvojnica, channel Struha from the mouth from the Morava river to the confluence with the channel Kátovské jazero (lake).

- 2-1000-1-1 Kanál Stará Gúta** **Hurbanovo**  
 Channel from Stará Gúta to the road bridge behind the pumping station in the village of Martovce to the floodgate. Minimal legal capture size of carp – 45 cm.
- 2-1010-1-1 Kanál Vrbová** **Hurbanovo**  
 Channel from the road bridge in the village Vrbová to the penultimate bridge in front of the village Landor. Minimal legal capture size of carp – 45 cm.
- 2-1080-1-1 Kostolník** **Stará Turá**  
 Stream Kostolník from the confluence under the village Vaďovce to the pontoon bridge at the fish farm under the dam body of Dubník no. 1.
- 2-1090-1-1 Krupinica č. 1** **Šahy**  
 Partial drainage area of the river Krupinica from the mouth near Šahy to the mouth of the stream Litava in the village Plášťovce.
- 2-1190-1-1 Malý Dunaj č. 1** **Kolárovo**  
 Partial drainage area of Malý Dunaj from the road bridge Komoča –Kolárovo to the mouth of the old river basin Čierna voda and main channel from the mouth nearby the village Kóveslágy to the boundary of the district Komárno-Šaľa (Csóvanyos). Minimal legal capture size of tench – 40 cm.
- 2-1200-1-1 Malý Dunaj č. 2** **Topoľníky**  
 Partial drainage area of Malý Dunaj from the mouth of the old river basin Čierna voda to the road bridge Trstice – Trhová Hradská.
- 2-1210-1-1 Malý Dunaj č. 3** **Dunajská Streda**  
 Partial drainage area of Malý Dunaj from the road Bridge Trstice – Trhová Hradská to the floodgate in the village Tomášikovo near the mouth of the connecting channel Čierna voda. Minimal legal capture size of tench – 40 cm.
- 2-1220-1-1 Malý Dunaj č. 4** **Galanta**  
 Partial drainage area of Malý Dunaj from the floodgate in the village Tomášikovo near the mouth of the connecting channel Čierna voda to the road bridge Jelka – Eliášovce.  
 Minimal legal capture size of tench – 40 cm and carp – 45 cm.
- 2-1230-1-1 Malý Dunaj č. 5** **Šamorín**  
 Partial drainage area of Malý Dunaj from the road bridge Jelka – Eliášovce to the road bridge Tomašov – Nová Dedinka.
- 2-1300-1-1 Melioračný kanál Tvrdonice** **Holíč**  
 Ameliorative channel Tvrdonice from the mouth of the Morava river at the water-gate Adamov through Kopčianske jazero –lake and Novymlynský stream to the mouth from Farská voda.
- 2-1330-1-1 Morava č. 5** **Sekule**  
 Partial drainage area of the Morava river from Tomkova Morávka rkm 59 (right side) nearby the village Moravský Svätý Ján-Sekule to the 3-boundary stone (the mouth of the river Dyje). The ground is boundary water – fishing is allowed exclusively in the area of the Slovak republic. Fishing on the

water areas of inundation is allowed only for the holders of local, guest, special and specific fishing licences.

**2-1340-1-1 Morava č. 6**

**Kúty**

Partial drainage area of the Morava river from the 3-boundary stone (the mouth of the river Dyje) up to rkm 78. Myjava river from to mouth to the floodgate nearby the village Kuklov, old riverbed of the Morava river nearby Kúty, closed arms on the Morava river's left bank. The ground is boundary water - fishing is allowed exclusively in the area of the Slovak republic. Fishing on the water areas of inundation is allowed only for the holders of local, guest, special and specific fishing licences.

**2-1350-1-1 Morava č. 7b**

**Holíč**

Partial drainage area from the pipeline bypass under Adamov up to the hydroelectric plant near Hodonín, and Cunínsky stream from the mouth to the springs. Fishing on the water areas of inundation is allowed only for the holders of local, guest, special and specific fishing licences.

**2-1351-1-1 Morava č. 7a**

**Brodské**

Partial drainage area from the edge of Kútsky les rkm 78,00 to the pipeline bypass under Adamov. Fishing on the water areas of inundation is allowed only for the holders of local, guest, special and specific fishing licences.

**2-1360-1-1 Morava č.8**

**Skalica**

Partial drainage area of the Morava river from the hydroelectric plant in Hodonín to the mouth of the Sudoměřický stream and the water area of the arm Ivánek which is a natural sanctuary under the Act regarding nature and country with the 5th level of protection where is potential fishing allowed only on the exception issued by state authorities of the nature and country. Fishing on the water areas of inundation is allowed only for the holders of local, guest, special and specific fishing licences.

**2-1370-1-1 Myjava č. 1**

**Šaštín-Stráže**

Partial drainage area of the Myjava river from the floodgate no.5728 nearby the village Kuklov to the road bridge Dojč – Šajdíkové Humence, channel Myjavka.

**2-1380-1-1- Myjava č. 2a**

**Senica**

Partial drainage area of the Myjava river from the road bridge Dojč-Šajdíkové Humence to the road bridge Majeričky-Podbranč. Minimal legal capture size of tench: 30 cm.

**2-1391-1-1 N-kanál**

**Drahovce**

Partial drainage area of the ameliorative channel from the top of the mouth from the Drahovský channel to the mouth of the river Dudváh.

**2-1400-1-1 Nitra č.1**

**Nové Zámky**

Partial drainage area of the river Nitra from the mouth to the river Váh nearby the village Komoča to the mouth of the river Stará Nitra nearby the village Nitriansky Hrádok. Minimal legal capture size of tench: 30 cm.

**2-1410-1-1 Nitra č. 2**

**Šurany**

Partial drainage area of the river Nitra from the mouth of Stará Nitra nearby the village Nitriansky Hrádok to the road bridge in the village Horný Vinodol and Stará Nitra from the mouth near Nitriansky Hrádok to the road bridge in the village Branč.

**2-1420-1-4 Nitra č. 3****Nitra**

Partial drainage area of the river Nitra from the road bridge nearby the village Horný Vinodol to the road bridge nearby the village Koniarovce, and Stará Nitra from the road bridge nearby the village Branč to the weir nearby the village Dolné Krškany.

**2-1430-1-1 Nitra č. 4****Topoľčany**

Partial drainage area of the river Nitra from the road bridge nearby the village Koniarovce to the mouth of the stream Vyčoma nearby the village Praznovce, tributaries Dršňa, Lišňa from the mouth to the springs, stream Chodina from the mouth to the water dam body of VN Nemečky and stream Železnica from the mouth to the water dam body of VN Duchonka. Minimal legal capture size of tench: 30 cm.

**2-1440-1-1 Nitra č. 5****Partizánske**

Partial drainage area of the river Nitra from the mouth of the stream Vyčoma nearby the village Praznovce to the mouth of Osliansky stream. Minimal legal capture size of carp- 45cm. The area from the weir of the minor hydroelectric power station in the village Kršteňany to the confluence with the river Nitrica represents the part of the ground „Catch and Release“.

**2-1450-1-1 Nitrica č. 1****Partizánske**

Partial drainage area of the river Nitrica from the mouth of the river Nitra to the road bridge in the village Skačany. Minimal legal capture size of carp:45 cm.

**2-1471-1-1 Obidský kanál****Štúrovo**

Drainage channel under the village Obid from the pumping station at the weir of Danube to the springs in the village Búč. Minimal legal capture size of tench: 40 cm.

**2-1481-1-1 Odpadový kanál č. 2 „Čekr“****Sekule**

Partial drainage area of the irrigation channel from the mouth on the road Závod – breeding station Dlhé Lúky to the crossing under Myjava so called „Kopanka“.

**2-1520-1-1 OR Berek****Nové Zámky**

The old arm of the river Nitra from the bridge Komoča to the wooden bridge nearby the village Aňala. Minimal legal capture size of tench: 30 cm.

**2-1800-1-1 OR Melečka****Šoporňa**

The water area of the old arm of the river Váh (2ha) nearby the village Šoporňa. Capture of carp and other fish species without individual breeding season and species without stated time of individual breeding, is allowed since the 15th May in 2015-2017. Minimal legal capture size of carp-45cm, tench – 35 cm and grass carp – 65 cm.

**2-1950-1-1 OR Trstice****Dunajská Streda**

The old arm of Malý Dunaj nearby the village Trstice. Minimal legal capture size of tench: 40 cm.

**2-2050-1-1 Parná č. 1****Trnava**

Partial drainage area of the river Parná from the mouth to the weir nearby the village Zvončín rkm 23,6. Minimal legal capture size of tench – 30 cm, carp 45 cm, brown trout 27 cm, rainbow trout 27 cm, grass carp 70 cm.

**2-2080-1-1 Patinský kanál č. 1** **Marcelová**

Water surface area of Patinský channel from the mouth of the Žitava river to the Majer Bokroš.

**2-2090-1-1 Patinský kanál č.2** **Komárno**

Water surface area of Patinský channel from the Majer Bokroš to the town Komárno. Minimal legal capture size of tench: 35 cm.

**2-2100-1-1 Perec č. 1** **Štúrovo**

The stream Perec from the mouth nearby the village Kamenín to the railway bridge in Zalaba. Minimal legal capture size of tench: 40 cm.

**2-2110-1-1 Perec č. 2** **Želiezovce**

The stream Perec from the railway bridge in Zalaba to the road bridge Mýtne Ludany – Starý Hrádok.

**2-2150-1-1 Preseľanský potok** **Šahy**

Preseľanský stream from the mouth nearby the village Preseľany nad Ipľom to the state boundaries with the Hungarian republic.

**2-2180-1-1 Radošina č. 1** **Nitra**

Partial drainage area of the river Radošina from the mouth nearby the village Lužianky to the road bridge nearby the village Biskupová and streams Perskovský, Blatina, Andáč from the mouth to the springs.

**2-2190-1-1 Radošina č. 2** **Topoľčany**

Partial drainage area of the river Radošina from the road bridge nearby the village Biskupová to the springs and to the flows of Lavinka, Vieska, Blatnica from the mouth to the springs. Minimal legal capture size of tench: 30 cm.

**2-2330-1-1 Rašelinisko Tárnok** **Sládkovičovo**

Water surface of the peat area (7 ha) nearby the settlement Tárnok.

**2-2650-1-1 Sikenica č. 1** **Želiezovce**

Partial drainage area of the river Sikenica from the mouth to the river Hron to the road bridge Mýtne Ludany-Hontianska Vrbica and the partial drainage area of the stream Podlužianka from the mouth to the river Sikenica to the road bridge in the village Starý Hrádok.

**2-2670-1-1 Spojovací kanál Cergát-Váh** **Nové Zámky**

Connective channel between Cergát č.2 and the river Váh. Minimal legal capture size of tench: 30 cm.

**2-2680-1-1 Spojovací kanál Martovce** **Hurbanovo**

Connective channel Martovce from the pumping station in the village Martovce to the mouth to the channel Vrbová. Minimal legal capture size of carp: 45cm.

**2-2690-1-1 Stará Nitra č.1** **Komárno**

Drainage area of the river Stará Nitra from the mouth of Vážsky Dunaj at the pump station Lándor to the mouth of Žitavy pri Martovciach. Fish winter habitat from the pump station Lándor to the

confluence of the river Stará Nitra with Vážsky Dunaj from 15th November till 15th March. Minimal legal capture size of tench:35 cm.

**2-2700-1-1 Stará Nitra č. 2**

**Hurbanovo**

Drainage area of the river Stará Nitra from the mouth of Žitavy pri Martovciach to the road bridge Aňala-Stará Gúta. Minimal legal capture size of carp:45cm.

**2-2710-1-1 Stará Žitava**

**Šurany**

Partial drainage area of the river Žitava from the village Dolný Ohaj pri Mlyne to the floodgate in the village Hul.

**2-2720-1-1 Striebornica č.1**

**Piešťany**

The stream Striebornica from the mouth to the river Váh to the dam body VN Striebornica. Minimal legal capture size of carp:45 cm, grass carp: 70cm and tench: 30 cm.

**2-2740-1-1 Svinica č.1**

**Bánovce nad Bebravou**

Partial drainage area of the river Svinica from the mouth to the river Bebrava to the railway bridge Svinná-Ruskovce and Hradniansky stream from the mouth to the springs.

**2-2760-1-1 Štiavnica č.1**

**Šahy**

The river Štiavnica from the mouth nearby the village Hrkovce to the bridge to the spa in the village Dudince.

**2-2930-1-1 Štrkovisko Bendő č.1**

**Dunajská Streda**

Water surface area of the gravel ground (5ha) nearby the village Gabčíkovo. The entrance to the gravel ground is between Boheľ and Pataš. Minimal legal capture size of tench:40 cm.

**2-3790-1-1 Štrkovisko Okoč**

**Veľký Meder**

Water surface area of the gravel ground (27ha) nearby the village Okoč. Capture of carp and other fish species without individual breeding season and species without stated time of individual breeding, is allowed since the 15th May in 2015-2017.

**2-4250-1-1 Štrkovisko Záhoň**

**Nové Zámky**

Water surface area of the gravel ground (8ha) nearby the village Bánov. Capture of carp and other fish species without individual breeding season and species without stated time of individual breeding, is allowed since the 15th May in 2015-2017. Minimal legal capture size of tench: 30 cm.

**2-4350-1-1 Uherecký potok č. 1a**

**Partizánske**

The Uherecký stream (Drahožica) from the mouth to the river Nitra nearby the village Pažiť to the road bridge at the scrapyard. Minimal legal capture size of carp: 45cm.

**2-4360-1-1 Váh č. 1**

**Kolárovo**

Partial drainage area of the river Váh from the road bridge Komoča-Kolárovo to rkm 35 and connective channel from the road bridge Nové Zámky-Komoča to the springs. Minimal legal capture size of tench:40cm.

**2-4370-1-1 Váh č. 2****Šaľa**

Partial drainage area of the river Váh from rkm 35 below the village Neded to the dam body VN Kráľová. The part of the fishing ground bounded by the dam body VN Kráľová to the imaginary flowline between the end of an artificial island in the middle of the flow and the beginning of the concrete road on the left bank of the river Váh is Protected Fishing Area (CHRO) – fishing is prohibited. Bounded points of the CHRO are marked with the white columns on the island and bank and additive buoys directly in the flow. Minimal legal capture size of tench:40 cm.

**2-4380-1-1 Váh č. 3****Sereď**

Partial drainage area from the road bridge nearby the village Váhovce to the channel Dudváh nearby the village Siladice. Three island above the highway bridge nearby the village Váhovce are Nature Reserve – No Entrance. Minimal legal capture size of tench: 40cm.

**2-4390-1-1 Váh č. 4****Hlohovec**

Partial drainage area from the mouth of the river Dudváh nearby the village Siladice to the mouth of the stream Jalšovský nearby the community Jalšové. Vážsky channel from the mouth to the river Váh to the hydroelectric plant in Madunice and Terezovské arm. Minimal legal capture size of grasscarp:70 cm, tench:30 cm.

**2-440-1-1 Váh č. 5****Drahovce**

Partial drainage area of the river Váh from the mouth of the stream Jalšovský nearby the village Jalšové to the mouth of the stream Ratnovský nearby the village Sokolovce.

**2-4410-1-1 Váh č.6****Piešťany**

Partial drainage area of the river Váh from the mouth of the stream Ratnovský nearby the village Sokolovce to the dam body VN Sĺňava and from the provincial bridge in Piešťany to the hydroelectric plant in Horná Streda. Vážsky channel from the hydroelectric plant in Madunice to the dam body VN Sĺňava and from the confluence of the river Váh and Vážsky channel in Piešťany to the hydroelectric plant in Horná Streda. In the area from the lower edge of the Krajinský bridge to the upper edge of the Sklený bridge is fish winter habitat – prohibition of fishing from 1st January till 15th March. The area from the dam body to the color labeled boundary (cca 130m from the dam body) is Protected Fishing Area (CHRO). Minimal legal capture size of carp:45 cm, grasscarp:70 cm and tench:30cm.

**2-4420-1-1 Váh č.7****Nové Mesto nad Váhom**

Partial drainage area of the river Váh and Vážsky channel from the hydroelectric plant in Horná Streda to the 1st bridge above hydroelectric plant in Nové Mesto nad Váhom

**2-4430-1-1 Váh č. 8 (H)****Trenčín**

Partial drainage area of the river Váh and Vážsky channel from the first bridge above the hydroelectric plant in Nové Mesto nad Váhom to the highway feeder road Nemšová-Dubnica nad Váhom except for water area of Enkláva in the cadastral areal of the village Trenčianska Teplá which represents individual fishing ground, fishing ground boundary is marked with the floating buoys. Fish wintering habitats are marked with the signs on the both sides in the area from the weir of Trenčianske Biskupice to the last stone dam, from the road bridge Bierovce to the mouth of the Trenčiansky stream, from the mouth of the Orechovský stream to the railway bridge including bay of the river Váh – fishing prohibited from 1st January till 15th March. In the area from the old bridge behind the village Zamarovce to the highway feeder road Nemšová-Dubnica nad váhom – occurrence of the Danubian salmon. Fishing prohibited from the publicly inaccessible and fenced lands.

**2-440-1-1 Vážsky Dunaj****Komárno**

Partial drainage area of the Vážsky channel from the mouth in the village Komárno to the road bridge Komoča-Kolárovo. Minimal legal capture size of tench: 35cm.

**2-5550-1-1 Vojnícky potok****Marcelová**

The Vojnícky stream from the mouth to the springs.

**2-4670-1-4 –VN Dolné Dubové****Trnava**

Water surface area of the dam (12ha) nearby the village Dolné Dubové and partial drainage area of the Dubovský stream from the mouth to the dam to the village Horné Dubové. The part of the fishing ground on the left side of the bank from the mouth of the stream marked with signs represents the purpose of use „breeding“. **2-5470-1-1 VN Veľké Uherce****Partizánske**

Water surface area of the reservoir (25 ha) nearby the village Veľké Uherce. Capture of carp and other fish species without individual breeding season and species without stated time of individual breeding, is allowed since the 15th May in 2015-2017. Fishing ground in 2015 is without water!

**2-5600-1-1 Źitava č.1****Hurbanovo**

Partial drainage area of the river Źitava nearby the village Martovce to the railway bridge Komárno-Nové Zámky nearby the village Bajč and adjacent water areas. Minimal legal capture size of carp: 45cm.

**2-5610-1-1 Źitava č. 2****Nové Zámky**

Partial drainage area of the river Źitava from the railway bridge Komárno-Nové Zámky nearby the village Bajč to the road bridge Dolný Oháj – Bánov. Minimal legal capture size of tench: 30cm.

**2-5620-1-1 Žitava č. 3****Šurany**

Partial drainage area of the river Žitava from the road bridge Dolný Oháj-Bánov to the road bridge in the village Žitavce and the stream Lyska from the mouth to the springs.

**2-5630-1-1 Žitava č. 4****Zlaté Moravce**

Partial drainage area of the river Žitava from sluice nearby the village Žitavce to the road bridge nearby the village Obyce and streams Čerešňový, Drevenica, STRáňka, Pelúsok, Kopanický, Širočina, Podegarský, Rohožnica, Bočovska, Telinský, Kováčovský and Melecký from the mouth to the springs. Minimal legal capture size of tench: 35 cm.

**2-5650-1-1 Žitava kanál č. 1****Marcelová**

Channel Žitava from the mouth nearby the settlement Žitavská Tôň to the mouth of the stream Ibolyás and the stream Ibolyás from the mouth to the springs and the connective channel Moča-Búč.

**2-5660-1-1 Žitava kanál č. 2****Komárno**

Water surface area of the channel Žitava from the mouth of the stream Ibolyás to Martovce (mouth of Stará Nitra). Minimal legal capture size of tench: 35 cm.

**2-5670-1-1 Žitnoostrovské kanály č. 1****Komárno**

Okoličiansko-Komárňanský channel from the mouth in the village Komárno to the district borders Komárno-Dunajská Streda, including water area of Šemlékeš, channel Holiare-Kosihy from the mouth to the district border, channel Kližská Nemá, Kolárovo-Kameničná and Balvanský channel. Minimal legal capture size of tench: 35 cm.

**2-5680-1-1 Žitnoostrovské kanály č. 2****Veľký Meder**

Ameliorating Žitnoostrovské channels: Vrbina-Lipové, Šarkaň-Holiare, Topoľovec-Vrbina and connective channel Milenovice-Kľúčovec and Čilizský stream from the mouth to the road bridge Pataš and its suspended arm nearby the road Veľký Meder-Čičov. Komárňanský channel from the district borders Komárno-Dunajská Streda to the spring, Ižopský channel, rests of arms "kederásztató", "fehér őrvény", "sebes őrvény" nearby the road Veľký Meder-Kľúčovec and "kerekág" at the building of SVP between villages Kľúčovec and Medveďov. The area from the pump station in Šarkaňovská samota to the mouth to the Aszódsy channel no.2 and Ižopský channel from the mouth to the channel Vrbina-Holiare to the streams represents the purpose of use as "breeding".

**2-5690-1-1 Žitnoostrovské kanály č. 3****Dunajská Streda**

Water surface area of Žitnoostrovské ameliorating channels – Trstená na Ostrove-Vrakúň, Vrakúň-Šarkan, Dobrohošť-Šarkan, Gabčíkovo-Topoľovec, Šulany-Jurová, Trstená na Ostrove-Baka, Dolnobarský channel from the road bridge Dunajská Streda-Komárno nearby the village Dolný Bar from the mouth of Danube. Čilizský stream from the road bridge Pataš to the springs and Lehnický channel with tributaries. Minimal legal capture size of tench:40 cm.

## **STREDOSLOVENSKÁ OBLASŤ – CENTRAL PART OF SLOVAKIA**

### **3-0070-1-1 Biela Orava č. 1**

**Námestovo**

Partial drainage area of the river Orava from the road bridge Námestovo-Tvrdošín to the mouth of Skalkový stream. Minimal legal capture size of grayling:30cm.

### **3-0200-1-1 Blh č. 1**

**Rimavská Sobota**

The river Blh from the mouth to the river Rimava to the weir body VN Teplý Vrch including tributaries: Papča, Tomášovský, Panický, Rakytník, Dražický, Hnojník, Radnovský, Cerové. Minimal legal capture size of grasscarp:70cm.

### **3-0660-1-1 Derivačný kanál Váhu**

**Martin**

Water surface area of the channel from the mouth to the river Váh to the weir body VN Krpeľany. In the parts of the channel under hydroelectric plants in Krpeľany, Sučany and Lipovec are fish winter habitats (15.12.-15.3.) marked with signs.

### **3-0850-1-1 Handlovka č. 1**

**Prievidza**

Partial drainage area of the river Handlovka from the mouth to the river Nitra nearby the village Koš to the mouth of the Hradecký stream (cascade in front of Agrospol) in the town Prievidza.

### **3-1030-1-1 Hričovský kanál**

**Bytča**

Water surface area of an artificial riverbed of the river Váh from the mouth of the right-side no-name stream behind the settlement Beňov to the dam body VN Mikšová and from the road bridge (direction Štiavnik) to the dam body VN Hričov.

### **3-1040-1-1 Hričovský kanál**

**Považská Bystrica**

Water surface area of the Hričovský channel from the confluence of the old riverbed of the river Váh at the end of the weir Špic nearby the village Orlové to the mouth of the stream behind the village Beňov. Minimal legal capture size of tench: 35 cm.

### **3-1050-1-1 Hron č. 4**

**Nová Baňa**

Partial drainage area of the river Hron from the mouth of the Čaradický (Kozárovský) stream in the cadastral area of the village Kozárovce to the road bridge in Rudno nad Hronom. There is a fish winter habitat from the road bridge Nová Baňa – Brehy 1,5 km upstream. Fishing prohibited from 1<sup>st</sup> December till 15<sup>th</sup> March.

### **3-1060-1-1 Hron č.5**

**Žarnovica**

Partial drainage area of the river Hron from the road bridge nearby the village Rudno nad Hronom to the mouth of the stream Teplá. From the road bridge nearby the village Bzenica 500m downstream (rkm 111,500-112,000) is fishing prohibited from 15<sup>th</sup> December till 15<sup>th</sup> March – fish winter habitat.

### **3-1070-1-1 Hron č. 6**

**Žiar nad Hronom**

Partial drainage area of the river Hron from the mouth of the Teplá stream to the pedestrian bridge in Hronská Dúbrava including the part of the Lutilský stream from its mouth to the river Hron to the first cascade (cca 200m). The mouth of the Lutilský stream to the river Hron to the 1<sup>st</sup> cascade is spawning ground, fishing is prohibited from 1<sup>st</sup> April till 15<sup>th</sup> May.

**3-1080-2-1 Hron č. 7 (H)****Zvolen**

Partial drainage area of the river Hron from the pedestrian bridge in Hronská Dúbrava to the mouth of the Lukavica stream. The part from the bridge at the Grammar School in Zvolen to the weir of the minor hydroelectric power station is fish winter habitat and spawning ground. Fishing prohibited from 1<sup>st</sup> January till 31<sup>st</sup> May. Minimal legal capture size of tench: grayling 33 cm, brown trout 30 cm.

**3-1090-2-1 Hron č. 8 (H)****Banská Bystrica**

Partial drainage area of the river Hron from the mouth of the Lukavica stream to the road bridge in Banská Bystrica- Radvaň.

**3-1250-1-1 Ipeľ č. 4****Veľký Krtíš**

Partial drainage area of the river Ipeľ in the Slovak republic area from the road bridge nearby the village Ipeľské Predmostie to the mouth of the Tisovník and Glabušovský stream, Veľký stream, Plachtinský stream and Stará rieka including Koprónice from the mouth to the borders of VO Lešť. Tisovník stream from the mouth to the river Ipeľ to the road bridge in the village Slovenské Kľačany including the Ľuboreč stream to the dam body VN Ľuboreč. The part of the river Ipeľ in the village Ipeľské Predmostie to the mouth of the stream Tisovník – boundary water. In the part from the road bridge in the village Ipeľské Predmostie to the mouth of the stream Tisovník is fishing on a live bait and spinning allowed from 1<sup>st</sup> April till 31<sup>st</sup> January based on the Decision of the Slovak Ministry of the Environment no. 8947/2009-8.1. Fishing prohibited from the dam body of the water building, its functional objects, fish migration area and minimally 100 m above and under that.

**3-1260-1-1 Ipeľ č.5****Lučenec**

Partial drainage area of the river Ipeľ from the mouth of the stream Tisovník to the boundary stone above the village Kalonda – boundary water. Fishing on a live bait and spinning allowed from 1<sup>st</sup> April till 31<sup>st</sup> January based on the Decision of the Slovak Ministry of the Environment no. 8947/2009-8.1. Fishing prohibited from the dam body of the water building, its functional objects, fish migration area and minimally 100 m above and under that. Minimal legal capture size of grasscarp 70 cm.

**3-1270-1-1 Ipeľ č.6****Lučenec**

Partial drainage area of the river Ipeľ from the boundary stone under the village Kalonda to the confluence of the Banský stream with the river Ipeľ in the village Breznička including tributaries Krivánsky stream from the confluence with Ipeľ to the water lock in the village Tomášovce, Tuhársky stream from the confluence with Krivánsky stream to the road bridge in the village Stará Halič, stream Suchá to the confluence with the stream Belina and the stream Belina to the boundary with Hungary VN Šiatorská Bukovinka. The part of this fishing ground is the stream Štavica as well. Minimal legal capture size of grasscarp 70cm.

**3-1390-1-1 Jazerá Rychnavské****Banská Štiavnica**

Water surface area of two lakes (9,2ha) nearby the village Štiavnické Bane.

**3-1770-1-1 Krupinica č.2****Krupina**

Partial drainage area of the river Krupinica from the mouth of the stream Litava nearby the village Plášťovce to the road bridge in the area Krupina-Vlčok.

**3-1830-2-1 Kysuca č. 1 (H)****Žilina**

The river Kysuca from its mouth to the river Váh to the road bridge Žilina-Považský Chlmec. Minimal legal capture size of tench 30cm, brown trout 27 cm.

**3-1840-2-1 Kysuca č. 2a (H)****Kysucké Nové Mesto**

Partial drainage area of the river Kysuca from the road bridge Žilina-Považský Chlmec to the road bridge Kysucký Lieskovec-Ochodnica and concrete footbridge in the village Dunajov to the mouth of the stream Bystrica in the town Krásno nad Kysucou. Minimal legal capture size of: grayling 33 cm, brown trout 30 cm.

**3-1841-2-4 Kysuca č.2b (H)****Kysucké Nové Mesto**

Partial drainage area of the river Kysuca from the road bridge Kysucký Lieskovec-Ochodnica to the concrete footbridge in the village Dunajov. This fishing ground belongs to the category "Catch and release" which means that an angler must not keep the caught fish".

**3-1850-1-1 Kysuca č.3****Čadca**

Partial drainage area of the river Kysuca from the mouth of the stream Bystrica in the town Krásno nad Kysucou to the mouth of the stream Olešnianka. Minimal legal capture size of brown trout 30 cm, rainbow trout 30 cm.

**3-2200-1-4 Marikovský potok č.1****Považská Bystrica**

Marikovský stream from the road bridge nearby the village Udiča to the mouth of the stream Radotina nearby the village Klieština. Minimal legal capture size of tench 35 cm.

**3-2350-1-1 Muráň č.1****Jelšava**

Partial drainage area of the river Muráň from its mouth to the river Slána nearby the village Bretka to the road bridge nearby the village Gemerské Teplice, including tributaries Hlavište, Prihradziansky stream, Lipovník, Rybník, Kováčovský stream.

**3-2440-1-1 Nitra č. 6a****Prievidza**

Partial drainage area of the river Nitra from the mouth of the Osliansky stream to the iron pedestrian bridge in the town Prievidza at the golf course. The Čereniansky stream from the mouth to the river Nitra upstream.

**3-2442-1-4 Nitra č. 6b****Prievidza**

Partial drainage area of the river Nitra from the iron pedestrian bridge in the town Prievidza at the golf course to the sluice in the town Prievidza – district Zápotôčky at the restaurant Dráčik. This fishing ground belongs to the category "Catch and release" which means that an angler must not keep the caught fish"

**3-2520-1-1 Nosicko-Kočkovský kanál****Púchov**

Water surface area of the channel from the hydroelectric plant in Ladce to the weir in the village Dolné Kočkovce and channel from the confluence with the old riverbed of the river Váh to the dam body VN Nosice. Area cca 150 from the dam wall (land fenced by the administrator) is Fish Protected Area marked with signs. Minimal legal capture size of tench:35 cm

**3-2530-1-1 Nosický kanál č.9****Dubnica nad Váhom**

Partial drainage area of the Nosický channel from the highway feeder road Nemšová-Dubnica nad Váhom to the hydroelectric plant in the town Ladce.

**3-2731-1-1 Orava č.4****Trstená**

The river Orava from the road bridge in the town Tvrdošín to the dam body VVN Tvrdošín. Minimal legal capture size of brown trout 30 cm, grayling 35 cm, carp 45 cm.

- 3-3250-1-1 Rimava č.1** **Tornaľa**
- Partial drainage area of the river Rimava from the mouth to the river Slaná to the mouth of the stream Teška nearby the village Číž.
- 3-3260-1-1 Rimava č. 2** **Rimavská Sobota**
- Partial drainage area of the river Rimava from the mouth of the stream Teška nearby the village Číž to the road bridge at the settlement Západ ( at the building belonging to Povodie Hrona) in the town Rimavská Sobota and tributaries Mačací, Belinský, Dubovský, Močiar, Gemerčeký stream. Minimal legal capture size of grasscarp 70cm.
- 3-3730-1-1 Slaná č. 1** **Tornaľa**
- Partial drainage area of the river slaná from the boundary stone on Slovak side of the border line with Hungary to the road bridge in the village Bretka including tributaries and Koňský stream from the mouth to the river Slaná to the road bridge in the village Štrkovec. The part from the boundary stone on the Slovak side (rkm0,0) to rkm 0,61 (boundary line) is boundary water.
- 3-3740-1-1 Slatina č.1** **Zvolen**
- Partial drainage area from the mouth to the river Hron to the dam body VN Môťová and from the steel footbridge to the minor hydroelectric power plant in the village Pstruša pod Čiernym mostom.
- 3-3970-1-1 Štiavnica č.2** **Krupina**
- Partial drainage area from the road bridge in the village Dudince to the road bridge in the village Hontianske Nemce.
- 3-4150-1-1 Štrkovisko Lipovec** **Martin**
- Water surface area of two gravel mines (24ha) nearby the village Lipovec.
- 3-4170-1-1 Štrkovisko Párnica** **Dolný Kubín**
- Water surface area of the gravel mine (17,3 ha) consisted of 17 water areas nearby the village Párnica-Záhrabovo. Capture of carp and other fish species without individual breeding season and species without stated time of individual breeding, is allowed since the 15th May in 2015-2017. Minimal legal capture size : brown trout 30 cm, rainbow trout 30 cm, brook trout 30 cm, chub 30cm, common dace 30 cm.
- 3-4220-1-1 Štrkovisko Sučany** **Martin**
- Water surface area of the gravel mine (14,22ha) nearby the village Sučany.
- 3-4520-1-1 Turiec č.1** **Tornaľa**
- Partial drainage area of the river Turiec from the mouth to the river Slaná to the road bridge in the village Sása.
- 3-4510-1-1 Turiec č.2** **Tisovec**
- Partial drainage area of the river Turiec from the road bridge nearby the village Sása to the mouth of the right-side tributary (Hrbský stream) nearby the village Hrlica.
- 3-4570-1-1 Váh č.9** **Dubnica nad Váhom**
- Partial drainage area of the river Váh from the highway feeder road Nemšová-Dubnica nad Váhom to the hydroelectric plant in Ladce.

**3-4580-2-1 Váh č. 10 (H)****Púchov**

Partial drainage area of the river Váh from the hydroelectric plant in Ladce to the dam body VN Nosice. In the area from the confluence of the river Váh and Nosicko-Kočkovský channel in the town Púchov (Špic) to the dam body VN Nosice is fishing prohibited from 16<sup>th</sup> March till 1<sup>st</sup> June – fish spawning habitat. Minimal legal capture size : sturgeon 70cm, brown trout 30 cm, rainbow trout 30 cm, tench 35 cm.

**3-4600-1-1 Váh č. 11****Považská Bystrica**

Partial drainage area of the river Váh from the confluence of the old riverbed and Vážska kaskáda channel at the end of the dam (Špic) nearby the community Orlové to the mouth of the stream behind the village Beňov to the Hričovský channel. Minimal legal capture size: brown trout 30 cm, grayling 30 cm, tench 35cm.

**3-4610-1-1 Váh č. 12****Bytča**

Partial drainage area of the old riverbed of the river Váh from the mouth of the stream behind the village Beňov to the dam body VN Hričov.

**3-4620-1-1 Váh č.13****Žilina**

Partial drainage area of the river Váh from the mouth of the Rajčanka river, including mouth to the 1<sup>st</sup> stage of Rajčanka over the road bridge in the town Žilina-Strážov, to the dam body VN Žilina. Minimal legal capture size : brown trout 35 cm, grayling 35 cm, rainbow trout 30 cm, brook trout 30 cm.

**3-4630-1-1 Váh č. 14****Žilina**

Partial drainage area of the river Váh from the boundary of CHRO (Protected Fishing Area) VD Žilina 100 over the mouth of the stream Varínka (on the right bank) and from the backwater on the river Váh (on the left bank) to the railway bridge Strečno-Vrutky. Minimal legal capture size: brown trout 35cm, grayling 35 cm, rainbow trout 30 cm, brook trout 30 cm.

**3-4670-2-1 Váh č. 17****Martin**

Partial drainage area of the river Váh from the mouth of the ameliorative channel to the dam body of VN Krpeľany. "Vývarisko" Water cushion under VN Krpeľany, the part from the turiec inflow to the Lipovecký bridge, passages 50m over and 50m under the road bench through the river Váh in Turan, railway bridge in the village Turany, pedestrian bridge to Kľačany and passages 50 m over the viaduct of the state road I/18 and 50m under the old road bridge in the village Sučany are fish winter habitats (15.12.-15.3.) marked by signs.

**3-5090-1-1 VN Hričov****Žilina**

Water surface area of the reservoir Hričov from the dam body to the mouth of the river Rajčanka. The part of the fishing ground marked by signs between islands as well as by buoys is all round stated as Fishing Protected Area (CHRO) where fishing is prohibited all year-round.

**3-5240-1-1 VN Krpeľany****SRZ Rada Žilina**
